

ARARSO ALISHO - Software Developer

📍 Addis Ababa, Ethiopia ✉ areealisho12@gmail.com ☎ +251934408928 📺 in/ararso-alisho 🌐 ararso.vercel.app/

SUMMARY

Innovative and results-driven Full-Stack & AI Developer with 4+ years of extensive experience in developing and leading digital transformation projects for government, private organizations, and educational platforms. Co-Founder and Manager at **Damina Tech PLC**, where I spearheaded large-scale digital initiatives, including municipal digitalization, e-learning platforms serving **6,000+ students**, and AI-powered public service solutions. Proficient in **Python, Django, React, Node.js, Next.js, Prompt engineering, and AI/ML technologies**, with a proven track record of delivering scalable, secure, and high-performance systems. Contributed to **OpenAI's ChatGPT** as a Python Developer, AI Trainer, and Evaluator, improving model response accuracy by **up to 70%**. Skilled in **project management, cross-functional team leadership, and stakeholder engagement**, with a strong focus on leveraging technology to increase operational efficiency, automate workflows, and enhance user experience.

EXPERIENCE

Lead Developer, Co-Founder & Operations Manager

Damina Tech

November 2024 - Present, Addis Ababa, Ethiopia

- As Developer, Co-Founder & Manager at Damina Tech PLC, I led the development and delivery of scalable digital solutions for government and private institutions, driving measurable improvements in efficiency and service delivery.
- Delivered **10+ digital systems** across public and private sectors, including Chiro City, Dire Dawa City Sport Commission, and Oromia Majlis Organization.
- Improved **public service delivery efficiency by 60–70%** through automation and digital workflows.
- Reduced manual processes and paperwork by **70%+**, accelerating turnaround times.
- Led **end-to-end development lifecycle** (design → deployment → maintenance) for all projects.
- Managed and scaled cross-functional teams, increasing project delivery speed by **40%**.
- Designed and deployed **enterprise systems, e-learning platforms, and management tools** used by thousands of users.
- Trained and mentored **600+ learners**, with many transitioning into tech careers.
- Ensured systems met high standards of **scalability, security, and reliability**.
- Integrated advanced analytics dashboards into 10+ enterprise platforms using Power BI and custom reporting tools, equipping leadership across government and private sectors with real-time insights that improved decision-making speed by 50% and boosted project tracking efficiency.

Backend Developer

DowellUxLivingLab

April 2024 - January 2025, Remote, India

- As a Backend Developer, I led backend development for a **Social Media Automation platform**, serving scalable multi-user operations.
- Built and optimized **RESTful APIs using Python**, improving system performance by **55%+**.
- Enhanced system reliability and reduced bugs by **60%** through structured testing and clean architecture practices.
- Implemented **secure authentication and data handling**, ensuring compliance with best practices.
- Automated **CI/CD pipelines**, reducing deployment time by **70%** and increasing release reliability.
- Collaborated with cross-functional teams to deliver features faster, improving development efficiency by **25%**.
- Streamlined database queries and refactored backend logic to substantially increase data retrieval efficiency, supporting higher user concurrency and reducing system latency.

Full-Stack & AI Developer

Ethiopian Artificial Intelligence Institute

September 2023 - December 2024, Addis Ababa, Ethiopia

- As a Full-Stack & AI Developer, I built scalable, AI-powered systems to enhance public sector efficiency and decision-making.
- Developed **5+ enterprise systems** (reporting, planning, user management) using Django, React, and REST APIs.
- Built an **AI-powered Smart Police System**, improving response and analysis efficiency by **60%+**.
- Designed and optimized **RESTful APIs**, increasing system performance by **40%**.
- Improved usability and operational efficiency by **40%**, while reducing system errors by **70%** through testing and best practices.
- Collaborated with cross-functional teams to deliver scalable, secure, and high-performance solutions.

Python Developer & AI Trainer (LLMs / ChatGPT)

Open AI

December 2022 - June 2024, Remote, California

- As a Python Developer & AI Trainer, I contributed to a leading global AI organization, OpenAI, working on improving large language models including ChatGPT.
- Contributed to **LLM (ChatGPT) development** as a Python Developer, AI Trainer, and Evaluator.
- Improved **model(ChatGPT) response accuracy by up to 70%** through training, evaluation, and feedback loops.
- Built and optimized **Python-based data pipelines** for AI training and evaluation.
- Enhanced **model reasoning, reliability, and user experience** using prompt engineering and data annotation.

Freelancer

UPWORK

August 2021 - December 2022, Remote

- Over a year of experience as a Freelance Python Developer delivering high-quality solutions for global clients.
- Developed **Django web applications**, web scraping tools, automation bots, and data analysis pipelines.
- Built custom **bots and automation scripts** to streamline client workflows.

- Performed **data extraction, cleaning, and analysis**, providing actionable insights.
- Focused on **meeting client requirements** and delivering projects on time with high satisfaction.

Full-stack Developer

TARKANFI GENERAL CORPORATION

Feb 2022 – November 2022, Hybrid, Harar, Ethiopia

- Led full-stack development projects that modernized Tarkanfi’s digital presence and operational workflows.
- Developed and launched **promotional website and commodity exchange platform**, increasing online user engagement by **80%**.
- Improved **operational efficiency by 60%** by digitizing commodity tracking and management.
- Enhanced **tech capacity**, enabling real-time inventory and transaction management for 1400+ farmers.
- Delivered **scalable, secure, and user-friendly solutions**, boosting stakeholder satisfaction and adoption.

Software Development Intern

Oromia Broadcasting Network (OBN)

May 2021 – September 2021, Adama, Ethiopia

- Gained hands-on experience in software development and broadcasting technologies.
- Developed an **E-Student Management System**, improving administrative efficiency by **40%** for high school operations.
- Assisted in **media content management and distribution**, ensuring timely delivery across multiple channels.

PROJECT

Chiro City Digitalization System

Damina Tech • github.com/orgs/Damina-Tech/repositories • July 2025 – Present

- Led the full-stack development of Chiro City’s municipal digital platform. Automated key public services, improving citizen request processing and administrative workflows by **60%**. Enabled online service access for **100,000+ citizens** with real-time dashboards.

Oromia Majlis Full Digitalization Platform

Damina Tech • March 2025 – Present

- Spearheaded digital transformation of Oromia Majlis administrative operations. Built a secure, scalable platform for online service, document management, and member communications. Reduced manual workflows by **70%** and enabled **100% digital tracking** of legislative activities.

TiruShop E-Commerce Platform

Damina Tech • www.tirushop.com/ • December 2024 – August 2025

- Built a scalable **e-commerce platform** for TiruShop, enabling online sales, inventory tracking, and payment integration. Increased online sales by **60%** and improved order fulfillment efficiency by **80%**. Implemented a seamless user experience across web and mobile.

Digital Skills E-Learning Platform(Damina Elearning)

Damina Elearning • elearning.daminaa.org/ • July 2024 – April 2025

- Designed and deployed an **online learning platform** that teaches digital skills to **6,000+ students**. Built interactive courses, real-time assessments, and student dashboards. Increased student engagement by **80%** and enabled remote skill acquisition at scale.

SKILLS

Technical Skill: Python, Django, JavaScript, Node.js, Next.js, React, NestJS, Flask, Bootstrap, REST Framework, Machine Learning & Data Analysis Libraries (Pandas, NumPy, etc.), Selenium Web Scraping, PostgreSQL, MySQL, Docker, CI/CD Pipelines, Telegram Bot Development & Automation.

Soft Skill: Leadership & Team Management, Strategic Planning, Problem Solving, Communication & Collaboration, Mentorship & Training, Analytical Thinking, Business Administration, Adaptability & Continuous Learning, Project Management, Stakeholder Engagement, Decision Making.

Language: English, Amharic, Oromic

EDUCATION

Bachelor of Business Administration

Harambe University • Adama, Ethiopia • 2022

Bachelor of Computer Science and Engineering

Adama Science and Technology University • Adama, Ethiopia • 2022

CERTIFICATIONS

Extreme Programmer Certificate

Ethiopian Collegiate Programming Contest (EtCPC) • 2022

- Awarded for **demonstrating advanced problem-solving skills** during the Africa and Arab Collegiate Programming Championship (ACPC), highlighting expertise in **algorithm design, programming efficiency, and competitive coding**.

AWARDS & HONORS

Certificate of Appreciation

Ethiopian CollegiateProgramming Contest(EtCPC) • 2023

• Awarded for **demonstrating advanced problem-solving skills** during the Africa and Arab Collegiate Programming Championship (ACPC), highlighting expertise in **algorithm design, programming efficiency, and competitive coding**.
