

Date: 4/4/2026Ref No: DT-14-2025**To:** Meahdalnur Public School No. 1**Subject:** Response to Your Letter Regarding the School Management System

Dear School Management,

We have received your letter concerning the implementation of the School Management System developed by Damina Tech PLC for Meahdalnur Public School No. 1. We appreciate the opportunity to support your institution.

After reviewing the matter, we would like to clarify that the challenges raised are not due to the performance or conduct of the personnel assigned by Damina Tech PLC. The assigned staff have worked diligently for over two months in line with the agreement.

However, the delay in fully implementing the system is primarily related to internal factors, including limited cooperation from school staff, insufficient facilitation of training and system adoption, a lack of a responsible person from the school, and the processing of only one month's payment despite continued service.

We emphasize that successful implementation requires strong collaboration from both sides. Damina Tech PLC remains committed to completing the system and ensuring it becomes fully functional within the school. To move forward effectively, we kindly request the school management to:

- Provide the necessary facilities and support for implementation,
- Facilitate teacher training and system adoption, and
- Process the outstanding payment for the assigned personnel as agreed.

Our assigned staff is ready to continue the work once these conditions are addressed. We believe resolving these issues will enable the smooth completion of the project and strengthen our collaboration.

Thank you for your attention.

Warm regards,
Damina Tech PLC
